### 1900 Series

The Edwards 1900MS12-24 is an accurate long-life LED time display piece that can be operated in a synchronized clock system. It reports time in 12 hour or 24 hour formats with hour and minute that may be dimmed with a switch. An 18 foot cord is connected to a Class 2 transformer which plugs into a standard wall outlet. It is suitable for use in indoor applications.

#### Features and Specifications

- Built-in serial interface for networking and time synchronization in a clock system
- Field selectable 12 or 24 hour format
- Hour and minute display
- 100,000 hour LED lamp technology
- Two week memory retention
- Master/Satellite field selectable
- Two levels of brightness
- Suitable for use in indoor applications
- Operating temperature range: 32° to 120°F (0°C to 49°C)
